The Greatest Imported Swiss Bargain We've Ever Known.

17,000 Yards of Fine Imported Mercerized Embroidered, Dotted, and Figured Swiss 28 INCHES WIDE Worth 39c and 50c a Yard, To-morrow

Just about one year ago (as you all will remember) we launched a Swiss sale that up to that time eclipsed anything in this line that was ever offered in Washington. The response was something tremendous, and the result was, at closing time we had sold nearly 15,000 yards. Our buyer has been on the alert for the past three or four months trying to find something that will create as much, if not more, of a sensation than the sale of last year. He has found it, and to-morrow the 400 pieces (or 17,000 yards) of this fine imported Swiss will go on sale. This Swiss is of beautiful quality, very fine and sheer, and embroidered with a fine mercerized thread. The patterns are of the very latest and include the much wanted seed dot, also several other size dots, fleur de lis, the oak leaf, the acorn combination of large and small dots, the clover, the rings, and a number of other designs too numerous to mention. Never in our history have we ever placed before the public such a wonderful value. These Swisses are the entire surplus stocks of two of the leading importers in the United States, and were purchased by us at a very great concession in price, which enables us to offer you to-morrow fine, imported, mercerized, embroidered Swisses, worth 39c and 50c a yard, at the remarkably low price of 15c.

New Method of Reducing Fat.

A news item from Paris informs us that the American method of producing a slim, trim figure is meeting with astonishing success. This system, which has made such a wonderful impression over there, must be the Marmola Prescription Tablet method of reducing fat. It is safe to say that we have nothing better for this purpose in this country. Anything that will reduce the excess flesh a pound a day without injury to the stomach, the causing of wrinkles, the help of exercising or dieting, or interference with one's meals is a mighty important and useful addition to civilization's necessities. Just such a catalogue of good results, however, folow the use of these pleasant, harmless, and economical little fat reducers. WEATHER CONDITIONS.

U. S. Dept. of Agriculture, Weather Bureau Washington, D. C., April 2, 1910-8 p. m. Low pressure prevails west of the Mississippi River but the center of depression still continues over the far Northwest, with no eastward advance of the rain area since Friday night. The Southwestern thunderstorm conditions, however, have extended northward and northeastward into Oklahoma, South-eastern Kansas, Missouri, Arkansas, and Western Tennessee; elsewhere fair weather continued. High temperatures continue generally and in portion of the Plains States, and the Northwest they are from 25 to 30 degrees above the seasonal average.
